Taxonomy

Kingdom	Phylum	Class	Order	Family
Animalia	Arthropoda	Insecta	Hymenoptera	Colletidae

Taxon Name: *Hylaeus hohmanni* Dathe, 1993

Taxonomic Source(s):

Dathe, H.H. 1993. Taxonomie und Verbreitung der Gattung *Hylaeus* F. auf den Kanarischen Inseln. *Veröffentlichungen des Übersee-Museums Bremen (Naturwissenschaften)* 12(2): 743-760.

Taxonomic Notes:

The species was formerly confused with *H. ater* and *H. canariensis* (Dathe 1993).

Assessment Information

Red List Category & Criteria: Data Deficient [ver 3.1](#)

Year Published: 2013

Date Assessed: September 6, 2013

Justification:

This species is listed as Data Deficient in view of the lack of information on the population size and trend, habitat and ecological requirements and threats. Further research is needed to establish the status of this species.

Geographic Range

Range Description:

This species is endemic to the Canary Islands (Lanzarote, Fuerteventura, Gran Canaria and Tenerife).

Country Occurrence:

Native: Spain (Canary Is.)

Distribution Map

Hylaes hohmanni

Range

■ Extant (resident)

Compiled by:
IUCN

The boundaries and names shown and the designations used on this map do not imply any official endorsement, acceptance or opinion by IUCN.

Population

The species appears abundant in the Canary Islands. There is no information about population trends.

Current Population Trend: Unknown

Habitat and Ecology (see Appendix for additional information)

The details about the habitats, the bionomics and ecological requirements of this species are not known.

Systems: Terrestrial

Use and Trade

This species is not traded or exploited commercially.

Threats

The threats to this species are unknown.

Conservation Actions (see Appendix for additional information)

This species is not included in a National Red List or Red Data Book. The species is not subject to any targeted conservation action. Further research is necessary to establish the size of the population, the habitat and ecological requirements and also to identify any existing threats.

It is not known if this species occurs in any protected areas.
