Taxonomy

Kingdom	Phylum	Class	Order	Family
Animalia	Mollusca	Gastropoda	Hygrophila	Planorbidae

Taxon Name: *Gyraulus clymene* (Shuttleworth, 1852)

Assessment Information

Red List Category & Criteria: Data Deficient [ver 3.1](#)

Year Published: 2011

Date Assessed: March 31, 2011

Justification:

This species was recorded by Fauna Europaea as being present in the Canary Islands in Spain (Bank *et al.* 2006). It is possible that it has been recorded as other species, so the distribution, population trends and threats are uncertain and research is required to enable a conservation assessment. Consequently it is listed as Data Deficient (DD).

Geographic Range

Range Description:

This species was recorded by Fauna Europaea as being present in the Canary Islands in Spain (Bank *et al.* 2006). It is possible that it has been recorded as other species, so the distribution is uncertain.

Country Occurrence:

Native: Spain (Canary Is.)

Population

There is no recent data on population trends in the Canary Islands.

Current Population Trend: Unknown

Habitat and Ecology (see Appendix for additional information)

This species was recorded by Fauna Europaea as being present in the Canary Islands in Spain (Bank *et al.* 2006). It is possible that it has been recorded as other species, so the habitats are uncertain.

Systems: Freshwater

Use and Trade

This species is not known to be utilized.

Threats

This species was recorded by Fauna Europaea as being present in the Canary Islands in Spain (Bank *et al.* 2006). It is possible that it has been recorded as other species, so the threats are uncertain.

Conservation Actions

This species was recorded by Fauna Europaea as being present in the Canary Islands in Spain (Bank *et al.* 2006). It is possible that it has been recorded as other species, so the distribution, population trends and threats are uncertain and research is required to enable a conservation assessment.

Appendix

Habitats

(<http://www.iucnredlist.org/technical-documents/classification-schemes>)

Habitat	Season	Suitability	Major Importance?
0. Root -> 18. Unknown	-	Unknown	-

Research Needed

(<http://www.iucnredlist.org/technical-documents/classification-schemes>)

Research Needed
1. Research -> 1.1. Taxonomy
1. Research -> 1.2. Population size, distribution & trends
1. Research -> 1.3. Life history & ecology
1. Research -> 1.5. Threats

Additional Data Fields

Population
Population severely fragmented: No

The IUCN Red List Partnership
