## Taxonomy

Kingdom	Phylum	Class	Order	Family
Animalia	Mollusca	Gastropoda	Stylommatophora	Enidae

**Taxon Name:** *Napaeus beguirae* Henríquez, 1995

## Assessment Information

**Red List Category & Criteria:** Near Threatened [ver 3.1](#)

**Year Published:** 2013

**Date Assessed:** September 29, 2010

### Justification:

This species is endemic to a single site on La Gomera and although the site is not thought to face any threats, there remain the possibilities that some event could impact the site in the future and hence it is listed as Near Threatened, almost qualifying for criteria B.

## Geographic Range

### Range Description:

This species is endemic to the Canary islands, in the north-western part of La Gomera. Alonso *et al.* (1995) note that this species is only known from a single location the Montana de Beguira and probably very localised.

### Country Occurrence:

**Native:** Spain (Canary Is.)

# Distribution Map

## *Napaeus beguirae*

Range

■ Extant (resident)

Compiled by:  
IUCN

The boundaries and names shown and the designations used on this map do not imply any official endorsement, acceptance or opinion by IUCN.

## Population

There are no data on population and it is known only from a few specimens.

**Current Population Trend:** Unknown

## Habitat and Ecology (see Appendix for additional information)

This species occurs in open rocky habitats (Alonso *et al.* 1995)

**Systems:** Terrestrial

## Use and Trade

This species is used.

## Threats

This site is not thought to face any threat: it is considered to be secure from fire and, due to its remoteness, unlikely to face development in the near future.

## Conservation Actions (see Appendix for additional information)

There are no conservation actions. The type locality should be protected.

# Appendix

## Habitats

(<http://www.iucnredlist.org/technical-documents/classification-schemes>)

Habitat	Season	Suitability	Major Importance?
0. Root -> 6. Rocky areas (eg. inland cliffs, mountain peaks)	-	Suitable	Yes

## Conservation Actions Needed

(<http://www.iucnredlist.org/technical-documents/classification-schemes>)

Conservation Actions Needed
1. Land/water protection -> 1.1. Site/area protection

## Additional Data Fields

Distribution
Estimated area of occupancy (AOO) (km <sup>2</sup> ): 4
Number of Locations: 1
Upper elevation limit (m): 530
Population
Population severely fragmented: No
